Welcome to November all! Registration for the spring 2022 semester opens today. Please reach out to Carly Mahedy or Josh Hertel if you need registration authorizations or if you have questions regarding course options. Below we have also included a listing of the special topics courses being offered this spring. Coming up this month we have a Tailgate event, Wednesday Seminars hosted by Tresata, Huntsource AI, and Corning. Please join the conversation!

Special Topics Courses
Important Dates

- **November 1st**: Class Registration opens for Spring 2022
- **November 6th**: Train, Test, Tailgate! - More information below
- **November 15th**: Flu Vaccine Attestation Deadline

Undergraduate Sports Analytics Certificate

The School of Data Science is launching an undergraduate Certificate in Sports Analytics!

The certificate is a partnership between SDS and the college of health and human services to prepare students for a career in Sports Analytics. Students will have the opportunity to learn from John Tobias, a senior analytical statistician with ESPN, and one of the first in the country to apply analytics in sports television. The new certificate will help students get a competitive edge in this booming industry. Read all about it below!

Dare in Reality Hackathon 2021: Envision Virgin Racing and Genpact Hackathon

Registration has just opened for this hackathon, a collaboration between EVR Analytics team and Genpact, to attract and engage with best-in-class Analytics students and young professionals from across the world. The challenge is simple yet powerful: the participating teams have to build a machine learning model that can predict the EVR racing drivers’ lap times for the all-important qualifying sessions that determine what position they start the race in.

- First Prize: $7,000
- Second Price: $5,000
- Third Prize: $3,000

The deadline to register for this competition is November 8th, 2021

Internships with Tresata

Wednesday, November 3, 2021 | 4:00-5:00pm

Join the School of Data Science and Pat Sellers during this
week’s Wednesday Seminar to learn more about internship opportunities with Tresata. Pat is the director of operations at Tresata, an intelligence software company. Their mission is to help every enterprise reach billions of customers by providing hypersonalization. Get ready to learn about all the amazon opportunities their internship has to offer!

Creating a Personal Brand with Huntsource

Wednesday, November 10, 2021 | 4:00pm - 5:00 pm

The cancelled September 1st Wednesday Seminar, Creating a Personal Brand, has been rescheduled as a virtual session on November 10.

In the interim Joe Hudson our guest presenter welcomes students to contact him at jhudson@huntsource.io with questions about creating a personal brand as part of your career development strategy. Joe is the Principal Recruiting Lead at Huntsource, a recruiting firm for data intelligence and analytics talent.

TechGuide: Data Science, Business Analytics, & Data Analytics

If you’re looking for general information on any of these fields, visit TechGuide for a full list of resources! Information on career paths in these fields is given in a simple and clean format.

Coursera for Campus

The School of Data Science has joined Coursera for the Campus Basic Plan. DSBA and HIA graduate students, and the Data Science undergraduates have access to more than 4,000 courses in the Coursera catalog. Students must request access by completing the google form below. Participants will receive an email confirmation from SDS and from Coursera with an invitation to set up an account.

More information about the Coursera for Campus can be found HERE.

Get involved in the Charlotte Data Science and Tech community!

We highly encourage our students to participate in the local community to embrace the dynamics of technology and entrepreneurship in Charlotte, the next technology hub of the East Coast. Because of that, we have been keeping a list of some of the most active groups in the Charlotte tech community on the Community Resources pages of our DSBA and HIA websites.

We are currently expanding our list to include professional organizations, local events, and more! Please click here to view our expanded list.

If you are involved with any local organizations or events that you would like to get the word out about to other students in the School of Data Science, please take a moment to fill out our Google Form. We will add submissions to our list and share the information in our next Student Newsletter and/or on our social media pages!

On Track to Graduate?
DegreeWorks is a web-based planning tool that provides an accurate display of required coursework and helps students monitor their progress towards graduation. Students can access their real-time audit in DegreeWorks via my.uncc.edu and should routinely check their progress towards degree completion.

For any required courses that are in the Fall Through or Not Counted sections of DegreeWorks submit an Academic Petition that requests the courses be counted towards your program requirements.

If you believe your audit contains errors or the requirements do not match the catalog, students should contact:

Josh Hertel:  jhertel@uncc.edu  
Carly Mahedy:  cfletcher@uncc.edu

If you began in the Certificate program and transferred to the Master’s program:
Please review your DegreeWorks for both your certificate and master’s program and complete an application to graduate from both programs.

Graduate Student Appreciation Week | November 15-20

GSAW is right around the corner! Please look over our schedule of events and register for any that interest you! As we near the end of the semester in November, we want graduate students to find some reprieve amidst the demands of their work. GPSG appreciates you, and we hope that you will join us for a week of fun! For quick access to the registration link, click here.

CDC Public Health Informatics Fellowship

The CDC Public Health Informatics Fellowship Program is currently accepting applications for its 2022-2024 cohort.
The CDC Public Health Informatics Fellowship Program (PHIFP) provides on-the-job training for professionals to apply expertise in information science, data science, computer science, and information technology to address current and future informatics and data science needs. Fellows are placed in assignments in centers and offices across CDC where they gain experiential training to enhance the agency’s informatics and data science workforce.

Applications are due **December 1, 2021**.

**Schleich - Digital Business Analyst**

If you want a high-visibility role in the fastest-growing area of an international toy business, we’d love to speak with you about joining Schleich’s North American Headquarters team in Charlotte, NC! We’re in need of a full-time Digital Business Analyst to create detailed business analysis for our eCommerce channel, including our own .com site as well as other partner retail sites (Amazon/Walmart/Target, etc.). Reporting to the **Director of eCommerce and Analytics**, this person will also be a resource for our global D2C sites and occasionally work with counterparts from our German Headquarters. The candidate who will best fit this role has a high bar for performance and is a curious self-starter with the ability to quickly discern and recommend actions based on data.

---

**Bank of America - Liquidity Risk Analyst**

The Liquidity Risk Analyst will understand the fundamentals of an effective stress testing program and ensure BAC’s process helps us appropriately manage risk. As a Risk horizontal team, it is our role to ensure that all elements of the Liquidity Risk Policy related to stress testing operate effectively across horizontal and vertical coverage team, as well as Lines of Business, Front Line Units and Control Functions.
Truist Internship: 2022 Technology & Innovation

The Technology and Innovation Internship Program is a 10-week program that provides future leaders of Truist with a strong foundation within technology and the financial services industry as a whole. The program provides high performing students with an opportunity to develop their leadership and technical skills and work on innovative projects and assignments within Enterprise Technology. The Enterprise Technology team develops and supports the technology capabilities that drive and enable us to serve the financial needs of our clients.

Deadline to apply: November 1, 2021

University of North Carolina at Chapel Hill-NC TraCS Institute - Research Informatics Specialist

This position will serve as a team member in the TraCS Informatics and Data Science (IDSci) Service, which provides support to all of the Health Affairs schools at UNC, including the School of Medicine, School of Public Health, School of Dentistry, School of Pharmacy, School of Nursing, and UNC Health Care System. The primary role of this position is to perform advanced data mining / programming against UNC’s clinical and administrative information systems to support informatics needs for research studies and initiatives. In addition, this position will play a key role in enabling research collaborations and data integration with collaborating universities and health care systems. The Research Informatics Specialist will work directly with faculty and research staff in contributing informatics consultation, design, and development to internal and multi-site, large scale research projects.

Deadline to apply: November 5, 2021

MUFG Americas Risk Management Summer Internship - 2022

The Risk Management Summer Analyst Program at MUFG is designed to help you learn how we maintain a disciplined approach to identifying, assessing, managing, reporting, and mitigating risks. Our 10-week Summer Analyst Program begins in early June and is structured to provide rising seniors with hands-on experience and business exposure in the world of Risk Management. You will be placed in a specific group that allows you to concentrate and quickly develop the skills and knowledge required to become an integral part of the team. You will work alongside MUFG professionals at all levels who will serve as your instructors and mentors. Interns also have the opportunity to attend learning sessions led by Americas Risk Management
professionals in all of the Risk Disciplines at the bank. Our program is designed to help you experience just what it’s like to work within the risk management organization.

Deadline to apply: November 6, 2021
